PIKME COMES IN WITH A BRILLIANT TECH SOLUTION THAT CAN HELP LOCAL ECONOMIES GROW BACK SAFELY IN THE TIMES OF THE COVID-19 PANDEMIC.

Ohio, US – PikMe revealed their solution, PikMe's suite of apps, to the world that promises to be the most effective and efficient way for people to resume going out to visit businesses in the COVID-19 pandemic and still be safe. With the power of AI & Blockchain, PikMe developed a suite of apps that enables any business to offer services like - appointment scheduling, virtual queues, and contactless deliveries.

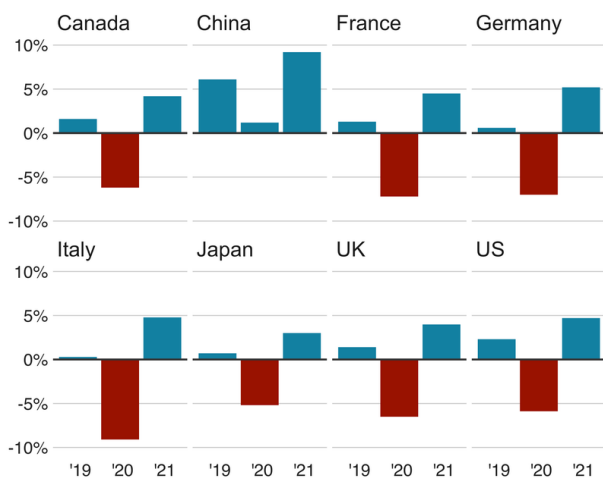

"PikMe suite helps any store or business to still be active and safe for their customers," said Prabhat Kumar Singh, CEO - PikMe. "The pandemic has taught the world to be ready and to be aware of their safety. PikMe plays a key role here. We are moving towards a future where all businesses are safe to visit even during a pandemic. 'Zero Contact' is the way of the future; we're just helping in achieving that."

PikMe Salesmax is a modular tech solution carefully developed for local shops and other businesses that require physical interaction with their stores by their customers. Salesmax offers a web-based admin dashboard as well as a mobile app that can be integrated seamlessly with any store or businesses and instantly enable them to be zero contact.

Many advanced economies are expected to enter recession this year

The global economy has taken a massive hit during the pandemic; The majority of losses have been incurred by local shops and businesses. Customers are not visiting in the fear of catching the virus. With PikMe, the businesses can now welcome their customers back with the confidence of being ready to handle the crowd efficiently and being overall safer by being a zero contact business.

PikMe is now available for all. Businesses can instantly sign up on the platform by visiting biz.pikme.io and enable all services

offered by PikMe. Whereas, the general public can download the PikMe app for free on their smartphones by visiting the Android play store or Apple app store and enjoy the benefits like Virtual Queues, Appointment scheduling, Contactless deliveries to their doors, and much more.
